

WILLOW BENDER

Originally from the Netherlands, Anneh now has her studio next to the beautiful Bulkley River. She has found her way to Quick, BC, in a very round-about way, and is extremely happy to live in this great and lively community!

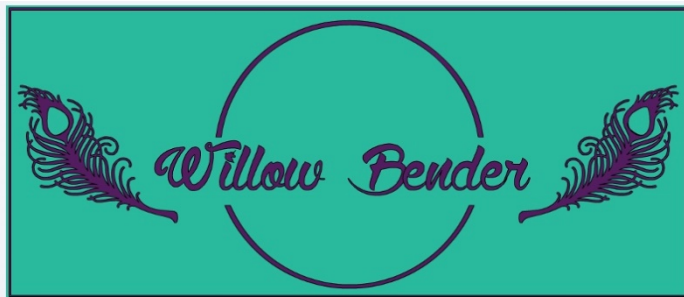

She has been making willow baskets along the way for the last 12 years. Recently she has started incorporating bulrush, birch bark, cedar bark, driftwood and clay pottery into her basket adventures.

Anneh enjoys going out and wild-crafting all her willows, bulrushes, birch and cedar along local rivers, streams and lakes. After this she continues to cure all her materials, before making traditional or one-of-a-kind baskets.

Please do not hesitate to contact her for any custom made baskets!

It is also possible to look up Willow Bender on Facebook and check out her latest creations.

More basket weaving workshops are planned for the winter of 2016/2017.
